While you're probably still struggling with the pronunciation you might find yourself hit straight in the face by the first chord... What a beautiful noise!

Straight-forward, nice and noisy. This is furious racket making at it's best! Punk Rock hasn't felt as fresh as this for a long time. For those who agree that toe tapping isn't quite enough these boys from Augsburg, Germany will blow your head off at no time.

Hörstreich have been touring for over twenty years. With gigs all

over Germany and Europe (GB, CZ, FR) they have made noise in quite a few places and got people jumping a whole lot of times.

Hold your breath and watch your body explode!
